PROFESSIONAL SUMMARY

Engineering Lead and Senior Software Engineer with over 15 years of experience architecting distributed systems, cloud infrastructure, and AI-driven platforms. Proven track record at Google and AWS driving ecosystem connectivity, platform reliability, and high-scale traffic management. Hands-on technical leader combining deep systems design with pragmatic product execution.

TECHNICAL SKILLS & COMPETENCIES

AI & AGENTIC SYSTEMS

LangChain · LangGraph · ADK (Agent Development Kit) · LLM Orchestration · Multi-Agent Architectures · Evals & Benchmarking

LANGUAGES

TypeScript · JavaScript · Python · Go · Java · Dart · Kotlin · Ruby

DATABASES & STORAGE

PostgreSQL · Redis · MongoDB · Vector Databases

ARCHITECTURE & CLOUD

AWS (Lambda, DynamoDB, CDK, S3) · GCP · Cloudflare Workers · Terraform · Docker · CI/CD Pipelines

WEB & FULL-STACK

Next.js · React · Angular · FastAPI · Node.js · Vue.js · Tailwind CSS · REST & GraphQL

PROFESSIONAL EXPERIENCE

Delta Labs AG

06.2026 – Present

Staff Software Engineer, Engineering Lead

Zurich, Switzerland

- Leading engineering on Elaiia, an AI powered market research platform.
- Own technical direction, multi-agent architecture, and delivery - hands-on in the codebase alongside the engineering team.
- Architected multi-agent simulation workflows with LangGraph, FastAPI, and Next.js, optimizing LLM cost efficiency.

TECH: LangChain, LangGraph, Next.js, FastAPI, Python, TypeScript, PostgreSQL

Google

11.2021 – 05.2026

Software Engineer

Zurich, Switzerland

- Merchant Center Next:** Developed the Product Diagnostics frontend for the revamped Merchant Center Next, delivering critical insight tools for merchants to monitor catalog health at Google scale.
- Business Manager:** Led technical design and implementation of user management (Authentication & Authorization) for Business Manager, a central hub allowing merchants to manage 1st- and 3rd-party applications (launched to >300k MAU).
- Ecosystem Integrations:** Led UI/features team implementing first-party linking between Merchant Identity and major platforms (Shopify, YouTube Shopping, Google Ads, Google Business Profile).
- AI Support Agent (20% Project):** Designed and developed an AI-powered agent to assist G-Tech support teams, automating >70% of responses to technical customer inquiries.

TECH: Java, Dart, Angular, Kotlin, SASS, ADK, Bazel

Amazon Web Services (AWS)

08.2020 – 10.2021

Software Development Engineer II

Berlin, Germany

- Testing Infrastructure (AWS CX):** Led initiative within central AWS Customer Experience (CX) team to simplify end-to-end testing (functional, canary, integration) for AWS Console product pages.
- Plug-n-Play Framework:** Delivered plug-and-play testing solution based on Webdriver protocol, enabling partner teams to seamlessly adopt automated testing for their specific console applications.
- Internal Tooling:** Contributed to development of centralized feature flagging solution, empowering internal teams to manage feature rollouts and experiments effectively.

TECH: JavaScript, TypeScript, React, WebdriverIO, AWS Services

EF Education First

07.2019 – 07.2020

Lead Software Engineer

Zurich, Switzerland

- **Traffic Management:** Designed architecture and migration path for Cloudflare Workers handling 100% of EF product page traffic (~13M requests/day). Served as primary technical contact with Cloudflare.
- **Team Leadership:** Led 4-person platform infrastructure team dedicated to serving product teams, focusing on CI/CD pipelines and deployment automation.
- **Design System:** Partnered with EF Global Creative Studio to implement a React component library, establishing a design system adopted company-wide.

TECH: TypeScript, Go, AWS, Terraform, Cloudflare Workers, React, GraphQL

R3PI

09.2018 – 04.2019

Software Development Engineer / Front-end Lead

Zurich, Switzerland

- **Frontend Guild Lead:** Served as primary SME for frontend engineering, making foundational technical decisions and leading 3-person team developing a CRM client application.
- **R&D & Prototyping:** Spearheaded R&D initiatives, handling cross-platform mobile development for an Augmented Reality (AR) navigation app prototype.
- **Performance & Architecture:** Optimized production builds, reducing bundle size by 25%, and enhanced GraphQL middleware with DataLoader caching to eliminate redundant external roundtrips.

TECH: TypeScript, JavaScript, Node.js, React, GraphQL, SASS

EF Education First

12.2017 – 08.2018

Senior Front-end Engineer

Lucerne, Switzerland

- Led front-end development for a greenfield e-commerce project replacing legacy monolith with JAMstack architecture.
- **DevOps & Quality:** Standardized team environments with Docker and set standards for Jest unit and Puppeteer integration testing suites.

TECH: JavaScript, Vue.js, Node.js, Docker, SASS, PostgreSQL

IS Engineering

01.2014 – 12.2017

Chief Software Architect

Zug, Switzerland

- Designed and implemented distributed Industry 4.0 factory productivity tracking and analytics system for multi-factory glass plants.
- Personally oversaw deployment, provisioning, and commissioning of the system to 10+ factory locations worldwide (Ukraine, Brazil, Turkey, Germany, France).

TECH: Ruby on Rails, Ruby, PostgreSQL, MongoDB, Docker, Vue.js, Highcharts, Node.js

Early Career Roles (PGS Software · sharewise · CMS Mirage)

05.2009 – 12.2013

Software Developer (Full-Stack / Frontend / Backend)

Wrocław, Poland

- Delivered web applications and services across multiple client and product environments, including real-time WebSocket push systems, distributed fleet management reporting, and frontend application development.

TECH: Ruby on Rails, Java, JavaScript, Node.js, Backbone.js, jQuery, PostgreSQL, Git

EDUCATION

Higher School of Information Technology and Management "COPERNICUS"

Computer Science

2007 – 2009 · Wrocław, Poland

University of Wrocław

Archeology

2001 – 2003 · Wrocław, Poland

CERTIFICATIONS

AWS Certified Solutions Architect – Associate

Amazon Web Services (AWS)

Issued 12.2019

Mobile Web Specialist

Google Developers

Issued 01.2019
